Yellow nectarine

HONEY FIRE COV

COV EU 27 231

3 to 5 days before Big Top®

Highly productive variety, with **fruits of an important size**

-

Amazing organoleptic qualities

-

Very well adapted **in all production areas**

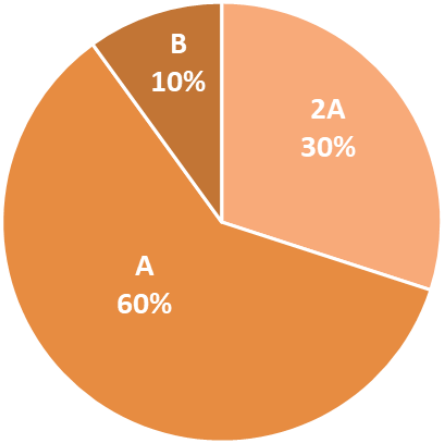
Fruit description

- **Shape :** circular, regular, with a little dip at the top
- **Skin** : attractive shiny dark red. The fruit skin is moderatly thick with very rare punctuations at the stem end.
- **Core** : medium sized, semi clingstone
- **Firmness** : very good
- **Flesh** : smooth and juicy
- **Organoleptic qualities** : very good , with sweet and aromatic flavours

Production

In good production conditions, the yield can reach **30-35 T/Ha.**

The dominant fruit size is **A/AA**, with an average weight of **160-170 g.**



Fruit at harvest time

	LOW	MEDIUM	HIGH
BRIX (%)*		10 12	
Acidity (meq / 100 g)*	8	10	
Aroma intensity		6	7

** Pimprenelle measures*

Fruit characteristics

- **Split cores susceptibility :** weak
- **Rot susceptibility :** weak
- **Sensitivity to handling :** weak

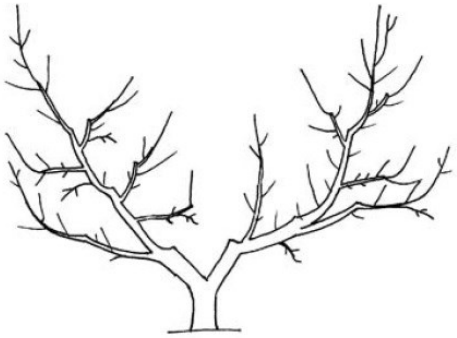
Information on this technical bulletin 01/2022 is indicative only and strongly depends upon production conditions, harvest time, and soil/climatic conditions of the year.

This is a protected variety, which requires a license and is the subject of royalties payments.

Propagation and production can only be done with IPS agreement.

Blooming

- **Bud break :** very early
- **Period :** mid season
- **Bloom set :** strong to very strong
- **Fruit setting :** strong
- **Thinning :** strong



Tree

- **Habit :** erect
- **Vigor :** strong
- **Wood qualities :** good
- **Shape pruning :** topping must be done during the 1st and 2nd years of the tree. Subsequently, opening of the tree structure must be done by pruning and/or bending.
- **Regular pruning :** on vigorous flowering shoots that are of good quality. The renewal branches will be selected by bending the strong 2 year old wood.
- **Summer pruning:** indispensable to take out the excessively vigorous shoots. Be careful not to prune too closed to the tree maturity to avoid sun damage.
- **Productivity:** very strong
- **Fruit set :** rapid
