

Information on this technical bulletin 01/2022 is indicative only and strongly depends upon production conditions, harvest time, and soil/climatic conditions of the year.

This is a protected variety, which requires a license and is the subject of royalties payments.

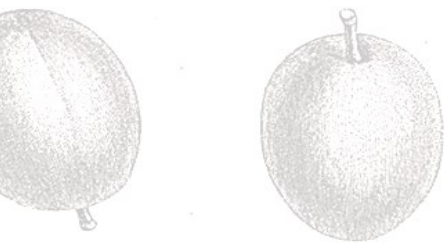

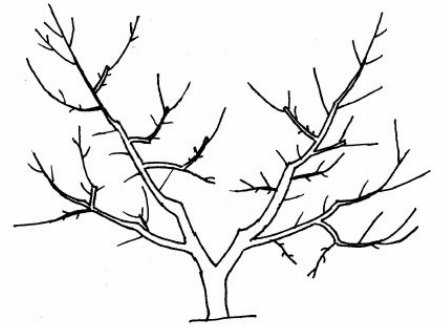

Propagation and production can only be done with IPS agreement.

## Blooming

- ◆ **Bud break** : early
- ◆ **Period** : early
- ◆ **Bloom set** : medium
- ◆ **Fruit setting** : medium
- ◆ **Thinning** : medium

## Tree

- ◆ **Habit** : semi erect
- ◆ **Vigor** : very strong
- ◆ **Wood qualities** : good
- ◆ **Shape pruning** : topping must be done during the 1st and 2nd years. Subsequently the scaffold branches will be opened by bending. Be careful to establish the sub scaffold branches at the same time as the main scaffold branches.
- ◆ **Regular pruning** : prune on vigorous flowering shoots and 2 year old wood. Be careful to keep an excedent number of bearing fruits branches to balance a random fruit setting, especially during the first years of the tree. Renewal branches must be established by bending the wood of sizable diameter.
- ◆ **Summer pruning** : indispensable during the all season. Must be particularly important on this very vigorous variety. Do not neglect.
- ◆ **Productivity** : medium
- ◆ **Fruit set** : moderately rapid

*Prunella Violette? L: 98.  
A. 10/11*
